The tables above show past performance of DVDY from 7 September 2020. Effective 7 July 2022 DVDY's reference index changed from the Morningstar® Australia Dividend Yield Focus Index™ ("old index") to the Morningstar® Australia Dividend Yield Focus Equal Weighted Index™ ("new index") with change to the index methodology. The Blended Index* includes the old index performance from 7 September 2020 and the new index performance from 7 July 2022 onwards. The current index performance shown prior to its launch date on 1 July 2022 is simulated based on the current index methodology. Results are calculated to the last business day of the month and assume immediate reinvestment of dividends. ETF results are net of management fees and costs, but before brokerage fees or bid/ask spreads incurred when investors buy/sell on the ASX. Index performance excludes cost of investing in the ETF. Returns for periods longer than one year are annualised. Past performance is not a reliable indicator of current or future performance which may be lower or higher.

Source: FactSet. Price/Earnings Ratio is the weighted average of the last closing price of each portfolio security divided by the last twelve months' earnings of the security. Price/Book Ratio is the weighted average of the last closing price of portfolio security divided by the book value of the security. Market Capitalisation of a publicly traded security is calculated by multiplying the security's last closing price by the total number of its shares outstanding. Dividend Yield is the weighted average of each portfolio security's distributed income during the prior twelve months before Management fees.
