Fund Description

VanEck Vectors FTSE Global Infrastructure (Hedged) ETF invests in a diversified portfolio of infrastructure securities listed on exchanges in developed markets around the world with the aim of providing investment returns (before management costs) that closely track the returns of the FTSE Developed Core Infrastructure 50/50 Hedged into Australian Dollars Index.

The FTSE Developed Core Infrastructure 50/50 Hedged into Australian Dollars Index comprises securities in developed countries which provide exposure to core infrastructure businesses, namely transportation, energy and telecommunications, as defined by FTSE's International Benchmark Classification.
