

## REIT

## VanEck FTSE International Property (Hedged) ETF

### Fund Description

REIT seeks to provide investors with access to a diversified portfolio of international property securities with the aim of providing investment returns, before fees and other costs, which track the performance of the Index. REIT is hedged to Australian dollars so its value is relatively unaffected by currency fluctuations.

The FTSE EPRA Nareit Developed ex Australia Rental AUD Hedged Index consists of securities that are real estate investment trusts (REITs) and companies listed on the exchanges of the world's major developed economies that own real estate assets and derive >70% of their EBITDA from rental income.

An investment in the ETF carries risks associated with: ASX trading time differences, financial markets generally, individual company management, industry sectors, foreign currency, country or sector concentration, political, regulatory and tax risks, fund operations and tracking an index. See the PDS for details.
