2 Basis of preparation of interim report

These interim financial statements for the half-year ended 31 December 2024 have been prepared in accordance with Australian Accounting Standards AASB 134 *Interim Financial Reporting* and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the *Corporations Act 2001* in Australia. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS 34 *Interim Financial Reporting*.

The interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these condensed financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2024 and any public announcements made in respect of the Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The Fund is a for-profit fund for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Statement of financial position is presented on a liquidity basis.

Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets at fair value through profit or loss and net assets attributable to unitholders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within twelve months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are redeemable on demand at the unitholders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months cannot be reliably determined.

(a) Material accounting policies

The material accounting policies adopted in the preparation of these financial statements are consistent with those applied in the preparation of the Fund's financial statements for the year ended 30 June 2024.

2 Basis of preparation of interim report (continued)

(b) New and amended standards adopted

There are no other standards, interpretations or amendments to existing standards that are effective for the first time for the half-year beginning 1 July 2024 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(c) New standards and interpretations not yet adopted

The following new and revised Australian Accounting Standard, Interpretation and amendment that has been issued but not yet effective is in the process of assessment:

- AASB 18 *Presentation and Disclosure in Financial Statements* which will be effective 1 January 2027

(d) Revised applicable standards and interpretations

Other new standards, amendments to standards and interpretations are not yet effective for the half-year beginning 1 July 2024 and have not been early adopted in preparing these interim financial statements. None of these are expected to have material effect on the interim financial statements of the Fund.

(e) Interim measurement

The nature of the Fund's operations is such that income and expenses are incurred in a manner which is not impacted by any form of seasonality.

This interim report is prepared based upon an accrual concept, which requires income and expenses to be recorded as earned or incurred and not as received or paid throughout the period.

There have been no changes in the risk management policies and processes of the Fund since year end.

3 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets/liabilities at fair value through profit or loss (see Note 4 and Note 5)
- Derivative financial instruments

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the annual financial statements.

3 Fair value measurement (continued)

(i) Fair value in an active market (level 1) (continued)

The quoted market price used for financial assets held by the Fund is the last traded price; the appropriate quoted market price for financial liabilities is the last traded price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this last traded price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of the Authorised Participants, a person who is a trading participant or has engaged a trading participant to act on its behalf to acquire and dispose of interests in a Fund.

Independent auditor's review report to the Unitholders of VanEck Emerging Income Opportunities Active ETF (Managed Fund)

Conclusion

We have reviewed the accompanying half-year financial report of VanEck Emerging Income Opportunities Active ETF (Managed Fund) (the "Fund"), which comprises the statement of financial position as at 31 December 2024, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Fund does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Fund's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Responsible Entity of the Fund are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Fund's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Shape the future
with confidence**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
